

# CONTRACTORS & ENGINEERS

MAGAZINE

## Index To Articles

January to December 1967 Volume 64

## CLASSIFICATION OF ARTICLES

Airports and bases

Bridges

Building Construction

Dams, Powerhouses, and Flood Control

General

Highways

Maintenance

Management

Paving

Special

Tunnels

## AIRPORTS

Use of bituminous base cuts six weeks on runway job (N.Y.)	Feb. pg. 26
Air-base apron resurfaced with tar-rubber mix preblended at job site (Virginia)	Feb. pg. 76
Contractor bypasses CPM in handling tight site condition (Florida)	May pg. 24
Grooving of airport runway provides safety at low cost (Washington D. C.)	June pg. 62
Vietnam airfields completed in record time (Vietnam)	July pg. 12
Special rigs, forms, and scaffolding speed terminal job (Texas)	Aug. pg. 26
Small dozers solve big soil problems on runway extension (Logan Int., Boston)	Dec. pg. 29

## BRIDGES

Concrete in bridge approaches cuts maintenance (Benjamin Harrison Memorial Bridge, Virginia)	March pg. 26
Smooth concrete without finishing dresses up freeways (California)	April pg. 32
Bridge cableway solves pier, steel-span placement (Bridge over Snake River in Idaho)	May pg. 30
Timber bridge provides economy and good looks (West Virginia & Ohio)	June pg. 70
Special fill, pile handling pace bridge work in swamp (North Carolina)	July pg. 18
Floating crane lifts 550-ton girders for orthotropic-deck bridge (San Mateo-Hayward)	Aug. pg. 40
Column collars carry deck-form trusses on viaduct (Seattle Freeway)	Sept. pg. 26
Traveler erects steel arch without falsework bent on bridge job (Gerold Desmond, California)	Nov. pg. 26
Prefab framing speeds construction of freeway bridges (Hawaii)	Dec. pg. 26

## BUILDING CONSTRUCTION

Gang forming insures on-time completion of zoo structure (Swape Park Zoo)	Jan. pg. 10
Tension-ring sections raised at Madison Square Garden (N.Y.)	Jan. pg. 30
Despite rain, fog, and bogs - boys' town ahead of schedule (Morgantown, West Virginia)	Mar. pg. 86
Contractor turns swamp into shoppers' paradise	Apr. pg. 70
Round church requires special cantilevered roof	Apr. pg. 69
Atlantic Ocean pushed back for hotel construction	May pg. 58
Delicate rock "operation" allows tower erection	May pg. 84
Custom-built forms shape architectural concrete (Wash. D. C.)	June pg. 12
Inflation raises concrete structure but lowers cost	June pg. 23
Forming system speeds stadium construction (San Diego, Calif)	July pg. 44
High-speed building techniques - from caissons to panels (Atlanta, Georgia)	Aug. pg. 58

## BUILDING CONSTRUCTION    Cont'd

Building contractor profits from imported tower crane (North Bergen, New Jersey)	Aug. pg. 64
Circular office tower hung on central core	Sept. pg. 54
How concrete 'umbrellas' were formed on Hawaii's capitol building	Sept. pg. 14
Tilt-up method 'forms' school with 30-ton panels cast at site (New York)	Sept. pg. 32
Tower crane swings heavy precast units across street	Oct. pg. 78
On-site management speeds solution of job problems (Hawaii)	Nov. pg. 39
Bridge-building technique provides lift for 100-story building (Illinois)	Dec. pg. 14

## CONVENTIONS AND MEETINGS

Asphalt pavers hold 12th annual meeting	Feb. pg. 44
AED's 48th meet stresses leadership	Feb. pg. 59
HRB meeting features computer information service	Feb. pg. 70
Report of AGC meeting in San Diego	Apr. pg. 44
Road Builders concerned over highway cutback	Apr. pg. 52
AISC conference forecasts trends in steel construction	June pg. 45
U.S. office to work on world's water programs	July pg. 30
Conference on construction contracts	July pg. 52
Dam experts from 42 nations hold conference in Istanbul	Oct. pg. 46
AASHTO Convention	Dec. pg. 34

## DAMS, POWERHOUSES, AND FLOOD CONTROL

Speedy concrete operations at Mossyrock Dam	Jan. pg. 26
Sand rake removes pumice from concrete aggregates (Mossyrock Dam)	Jan. pg. 34
New dike to take hell out of high water	Jan. pg. 58
Major channel improvements made on Turtle Creek Flood Project (Pennsylvania)	Mar. pg. 62
Cone crusher increases dam aggregate production (Morrow PT Dam, Colorado)	Mar. pg. 80
Thin-arch Morrow Point Dam climbs up steep, narrow canyon	Apr. pg. 58
Barges provide profitable move on Opekiska Dam (W. Virginia)	May pg. 46
Bentonite slurry cuts seepage at Camanche reservoir project (California)	May pg. 22
Cantilever forms speed monolithic lock walls (Racine Lock & Dam, West Virginia)	June pg. 52
Oroville Dam nears topping out (California)	July pg. 76
Conveyors place concrete on Oroville Dam spillway (Calif.)	Aug. pg. 48
Good planning, efficient crew knock year off dam time (Stillhouse Hollow, Texas)	Sept. pg. 36
Precise slurry trenching gives tight dam protection (Georgia)	Oct. pg. 59
Construction techniques overcome soil problems on Alabama dam sites	Nov. pg. 16

## GENERAL

Perfection mandatory for J.F.K. gravesite memorial	Jan.	pg. 20
Expo 67 - a contribution toward the future	Jan.	pg. 54
Forecast for 1967 - Inflation clouds business outlook	Jan.	pg. 62
Tight control of grade required for long gravity-flow sewer	Feb.	pg. 54
Chesapeake and Delaware Canal improvement barges ahead	Apr.	pg. 48
Profitable dredging disposal requires 2-way attack	Apr.	pg. 54
"Dirty pictures" - or how video tape records geophysical data	May	pg. 64
Contractors invited to Paris for Poclain International Pays	May	pg. 110
Big mole, muck and concrete systems cut sewer-tunnel time	May	pg. 112
The Shooting Box	June	pg. 56
Cut foreman cuts cost	June	pg. 76
The Shooting Box	Aug.	pg. 30
Vietnam's answer to shortage of deep-draft dockage	Sept.	pg. 44
Finance: Pipeline to profitable investments	Oct.	pg. 48
Multicell dock requires special techniques and equipment (Miss.)	Oct.	pg. 38
Finance: Pipeline to profitable investments	Nov.	pg. 36
Shooting Box	Nov.	pg. 46
Calm seas halve time for prefab harbor-light job	Dec.	pg. 42
Shop-built finisher lines drainage canal	Dec.	pg. 20

## HIGHWAYS

Massachusetts gives presplitting a trial	Jan.	pg. 44
Six contractors open massive cuts for I-5	Jan.	pg. 68
Helicopter places chain-links fabric	Jan.	pg. 84
Master plan aids efficiency of highly automated equipment	Feb.	pg. 20
Special forming rigs used on congested underpass	Feb.	pg. 56
20 million yards excavated on 3.6-mile grading job (I-5 Cal.)	Mar.	pg. 20
Tight plan licks cold weather on interstate job	Mar.	pg. 28
Careful blasting, base work push Northway to Expo 67 (N.Y.)	Mar.	pg. 32
Planned cut, fill balance allows winter road work	Mar.	pg. 58
Temporary tunnel carries traffic (Pennsylvania)	Mar.	pg. 74
Scrapers pick up pots, stoves, and refrigerators	Apr.	pg. 79
Priority plan keeps equipment moving in congested area	May	pg. 14
Tri-bowl scraper and 170-ton tractor dominate grading site (Ill.)	May	pg. 80
Highway improvement calls for bridges, hydraulic fill	May	pg. 70
City emerges from swampland in sand grading battle	June	pg. 24
Careful planning keeps scrapers working	June	pg. 58
Contractor brings large aggregate plant along to road jobs	Aug.	pg. 24
Crushing contractor runs tight set up for fully graded base	Sept.	pg. 50
Big machines grade freeway through Santa Susana Pass (Calif)	Nov.	pg. 30
One-man 3-rig trains move 75-yard payloads	Dec.	pg. 24
Six steps solve tough highway grading job	Dec.	pg. 40b

## MAINTENANCE

Empty shop shows field PM program works	Jan.	pg. 65
Maintenance formula: PM + parts exchange = less downtime + profits	Feb.	pg. 71
A balance of \$\$\$ and sense - a clue for maintenance savings	Mar.	pg. 82
Iceberg-style maintenance - small jobs reveal hidden troubles	Apr.	pg. 89
How contractor streamlines shop, PM system for savings	May	pg. 88
One man, plus tight PM, keeps 93 rigs going	June	pg. 65
Motto: 'Anything above zero downtime spells loss'	July	pg. 73
On-the-spot overhaul keeps rigs at job	Aug.	pg. 67
Strict PM, shop-built aids spell 'plus' on balance sheet	Sept.	pg. 57
Experienced operators cut downtime through teamwork	Oct.	pg. 51
Faulty filters can drain your profits	Oct.	pg. 18
Formula for low downtime: radio, reports, roving service vans	Oct.	pg. 57
Good maintenance helps contractor beat schedule on Oroville Dam	Oct.	pg. 12
How to set up a PM program for hydraulic rigs	Oct.	pg. 30
Inspection service saves money on new and used machines	Oct.	pg. 22
When PM means 'Progressive Maintenance' - downtime drops	Nov.	pg. 48
Maintenance geared to crash programs	Dec.	pg. 49

## MANAGEMENT

Specialty contractor works hard selling drilled caissons	Jan.	pg. 50
How to control job-site payrolls	Feb.	pg. 22
Hawaii-based Dillingham finds markets throughout the world	Feb.	pg. 36
C&E interview: Rooney plugs construction careers for students	Mar.	pg. 92
Vietnam: Contractors attack time and terrain	Apr.	pg. 74
How to collect for extra work performed	May	pg. 50
The Rieth brothers - road builders	June	pg. 48
CPM charts contractor's progress and profits	July	pg. 20
San Ore Construction Co. - the Miller Brothers' story	Aug.	pg. 12
Anthony Benintend, general contractor, looks at the industry	Aug.	pg. 34

## PAVING

"Hopped-up" pugmill boosts CTB plant output	Feb.	pg. 10
Contractor joins researchers on asphalt-paving techniques	Mar.	pg. 68
Contractor solves drainage, soil problems on paving job	Apr.	pg. 98
Contractor's aggregate plant pays off on paving project	May	pg. 16
Separate batch rock, cement plants feed slip-form paver	May	pg. 40
Contractors coordinate paving with stadium completion	June	pg. 28
Prototype slip form paves Interstate (I-80 Wyo.)	June	pg. 41
Prototype base materials tested on same project	Aug.	pg. 62

## SPECIAL

Off-highway haulers - the bigger, the better	Jan. pg. 14
Finance facts contractors should know	Feb. pg. 60
Contractor aggregate production- profit or loss?	Mar. pg. 46
Compare YOUR costs - wheel loaders vrs. power shovels	Apr. pg. 80
How to get the most out of tires	May pg. 76
Explosives: How to use them most effectively	June pg. 32
Why tower cranes are climbing in popularity	July pg. 34

## TUNNELS

Eight-drill jumbo drives big turnpike tunnel (Kittatinny Tunnel, Pennsylvania)	Jan. pg. 40
Soft rock calls for switch in tunneling techniques (Del Valley Dam, Col.)	Apr. pg. 22
'Siamese-twin' tunnels solve excavation problem on Toronto subway	Aug. pg. 22
'Magic Carpet' speeds Loon Lake Tunnel excavation	Nov. pg. 34
Special machines place forms and reinforcing for BART	Dec. pg. 36
